

Where is the racing schedule for 2015?

Posted by 944spacebound - 18 Feb 2015 13:21

Hello, I am interested in racing a 944. I am trying to find a legit schedule for either nasa or scca schedules for their 944 spec or races that will allow 944's? On this website the latest schedule is from 2013. I have to go to the NASA schedule and all it says is when races are. But doesn't display any information on what specs are allowed until I click on it.

So yeah, anyone know where I can find a current schedule for racing 944's in northern california region?? Thanks.
