

Two Porsche 944 for sale for \$3000

Posted by KotheRacing - 27 Jan 2012 07:38

Updated:

I have a '87 944 street car, engine doesn't run but the rest of it is in good shape.

New Koni sport adjustable struts.

944 turbo transmission.

I also have a '89 944 that I was building up for spec 944 racing. I have too many projects so I am selling it.

I have a roll cage for it that needs to be put in.

New brake calipers, pads and rotors

Wheel bearings

Weltmeister sway bars (missing a few hardware pieces)

Turbo sway bars and torsion bars

The engine does need to be fixed, the timing belt went recently, but before that, the engine was overhauled.

Interior has been taken out but still have some of it so if you wanted to turn it back into a street car you can, no seats.

I'll get some pics soon. Right now just finding out who is interested. Let me know, thanks.

Located in Indianapolis IN

\$3000
