

WTB Torsion Bars & Springs

Posted by joeblow - 19 Feb 2013 17:29

Guys I need 30mm/31mm torsion bars and 350#-425# front springs in 2.25"ID or perhaps 2.5"ID in appropriate lengths. What do you have?

www.pacificcustoms.com/AC501302-30.html

I have been told these 30mm solid bars fit our cars and for \$190 they are the least expensive

Wow if we can use type1 vw torsions that opens up a lot options. Has any body actually done this?
