

Transponder Needed

Posted by 400HP944 - 14 Jan 2014 17:10

Looking for a hard wired transponder for the yellow car. Anyone have a used unit for sale? Know of any deals on a new one. I haven't found any after searching.... It's like buying a GoPro, everyone has the same price.

If you are a PCA member, there is a discount on the national site. It is a little hard to find, but it is there. If not a member, try ebay. A friend of mine just got one there at a discount.
