

Who wants to be an exhibitionist ?

Posted by SvoChuck - 18 Apr 2008 10:43

Get ready Race Fans ! We are going into the heart of knuckle draggers ! For some FREE racing ! I'm still working on the details but plan on it being a sponsor paying, NASA race for 944-SPEC ! We will also be able to show off the cars to all of the crowd before and after the nights races .

So get out those mud flaps and mullet wigs . It's going to be FUN !

www.i25speedway.com/

More details to come, and YES I am working this for Colorado National Speedway also.

This will also really help on sponsor search due to the number of fans that will see our cars !

I have a couple extra RA1s to burn up on the right side of the car. Sounds like fun !
